There are no adequate words to express my deep sense of indebtedness to Mr. S. A. AGASHE who has taken keen interest right from the very beginning of my work for this index and helped me classifying alphabetically slips of words. Final verification of all entries from individual chapter-indices is also due to him.

I am glad to record my gratefulness to Prof. G. B. SARDAR for going through a good number of forms of this index and suggesting some alterations in meanings.

APPENDIX

ADDITIONS, OMISSIONS & CORRECTIONS

The reader will easily detect that words explaining the use of some basic vocables do not form part of the meaning of those vocables.

Italicised printing is not meant for any word of the meaning-portion under the entries. The reader will please correct for himself indiscrepancies, if any, regarding this.

Likewise, a few words will be required to be compounded by hyphen for better understanding.

In the case of some proper names the diacritical marks have not been made use of through oversight.

Under ADDITIONS and OMISSIONS attention is drawn only to that portion which is underlined.
